Filipinos turn off lights

By [illegible]

More than 100,000 people took part in a nationwide "Turn Off the Lights" campaign on Monday, the first day of the "No Light Pollution Week" organized by the Department of Environment and Natural Resources (DENR).

The campaign was part of a series of activities aimed at raising awareness about the effects of light pollution on the environment and human health. DENR officials said that light pollution is a growing problem in the Philippines, particularly in urban areas.

The campaign was held in various parts of the country, including Manila, Cebu, and Iloilo. Participants were encouraged to turn off their lights at home and in their workplaces during the campaign period.

The DENR said that the campaign was a success, with many people participating and turning off their lights. The agency said that it will continue to promote the campaign in the future.

The campaign was part of a larger effort by the DENR to protect the environment and promote sustainable development. The agency said that it will continue to work with other government agencies and the private sector to address environmental issues.

The campaign was also part of a series of activities aimed at raising awareness about the effects of light pollution on the environment and human health.

Albay bans future mining activities

By Ben L. Bayardo

Albay has banned all future mining activities in the province, including the exploration, development, and operation of mines, as well as the processing and export of minerals. The ban, which took effect on June 1, 2022, was signed by Governor Benjie Abaya and aims to protect the province's environment and natural resources.

The ban covers all areas within the province, except for existing mines that have been granted valid permits before the ban took effect. The governor said that the ban was necessary to protect the province's environment and natural resources, which are vital to the province's economy and tourism industry.

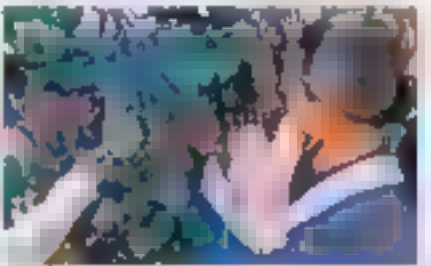

The ban also applies to the processing and export of minerals, which has been a major source of revenue for the province. The governor said that the ban was necessary to protect the province's environment and natural resources, which are vital to the province's economy and tourism industry.

DA incorporates climate change in new farm targets

The Department of Agriculture (DA) has incorporated climate change into its new farm targets for 2022. The targets, which were announced on June 1, 2022, aim to increase the productivity and resilience of the agricultural sector in the face of climate change.

The new targets include increasing the production of rice, corn, and other major crops, as well as promoting sustainable agriculture and climate-smart farming practices. The DA said that the new targets were necessary to ensure the long-term sustainability of the agricultural sector.

Darkness smells something fishy in probe GenSan airport renovation

A probe into the renovation of the General Santos International Airport (GenSan) has revealed a series of irregularities and a lack of transparency. The probe, which was conducted by the Department of Justice (DOJ), found that the renovation project was plagued by delays, cost overruns, and a lack of proper oversight.

Robber preys on child

By Murray C. Brundage

The diagram illustrates the experimental setup for studying the effect of reactant concentration on the reaction rate. It shows a reaction vessel where reactants are introduced and products are removed. The chemical reaction being studied is the combustion of hydrogen gas: $2\text{H}_2 + \text{O}_2 \rightarrow 2\text{H}_2\text{O}$.

Figure 1. A schematic diagram of the experimental design. The diagram shows a sequence of events: a subject is presented with a stimulus (a word or picture), then a response is made (a button press), and finally a feedback is provided (a light or sound). The sequence is repeated for multiple trials, with the stimulus and response being different for each trial. The feedback is provided after each response. The diagram is labeled with 'Stimulus', 'Response', and 'Feedback'.

Hawks nail playoff slot

Knicks continue freefall, lose sixth straight

ATLANTA — The Atlanta Hawks secured their playoff berth with a 101-90 victory over the New York Knicks on Monday night at Madison Square Garden. The Hawks, who were in a tight race for the eighth seed, finished with a record of 31-21. The Knicks, who have lost six straight games, fell to 18-31. The game was a defensive battle, with the Hawks' defense holding the Knicks to 35 points in the fourth quarter. The Hawks' offense was led by Dominique Wilkins, who scored 22 points, and Magic Johnson, who had 15 points and 10 assists. The Knicks' offense was led by Patrick Ewing, who scored 18 points, and Charles Smith, who had 15 points and 10 rebounds.

The Hawks' victory was a crucial one for them, as it moved them into a playoff position. The Knicks' loss, on the other hand, was a setback for them, as it moved them further away from a playoff spot. The Hawks will face the Chicago Bulls in the first round of the playoffs. The Knicks will have to wait until the next season to see if they can turn their fortunes around.

Outsmarting the smartphone

Users are urged to study their devices thoroughly

By David H. Freedman

Smartphones have become an integral part of our lives, but they also pose a significant security risk. Users are urged to study their devices thoroughly to protect their personal information and financial data. Experts recommend that users should regularly update their operating systems and apps, use strong passwords, and avoid downloading apps from untrusted sources. Additionally, users should be cautious about sharing their location and other personal data with apps and services. By taking these steps, users can better protect their privacy and security in the digital age.

Kodak wins round in Apple-RIM feud

Kodak wins round in Apple-RIM feud. The court has ruled in favor of Kodak, stating that Apple's patent infringement claim against RIM is invalid. The court found that Apple's patent was not valid because it was not novel or non-obvious. This is a significant victory for Kodak, as it means that Apple cannot sue RIM for patent infringement. The court also ruled that Apple's patent was not valid because it was not novel or non-obvious.

The diagram illustrates the experimental setup. A participant is seated at a table, looking at a screen. On the screen, there is a target (a small circle) and a starting point (a larger circle). The participant's hand is positioned at the starting point. The diagram shows the spatial relationship between the participant, the screen, and the target, with labels for 'Participant', 'Screen', 'Target', and 'Starting Point'.

How to make a good graduation speech

By Terrell P. de Salazar

I might be a little nervous, a good reason to make the most of your graduation speech. It's a chance to shine, to show the world that you're a graduate. It's a chance to make the most of your graduation speech.

1. **Know your audience.** Who are you speaking to? Are they your friends, family, or the general public? Tailor your speech to your audience. 2. **Keep it short.** A graduation speech should be no longer than 10 minutes. 3. **Be sincere.** Don't read from a script. Speak from the heart. 4. **Practice.** Rehearse your speech several times before the day. 5. **Be confident.** Stand tall, make eye contact, and smile. 6. **End on a high note.** Leave your audience with a positive message.

1. Practice in front of a mirror. 2. Keep your "thank you's" brief. 3. Praise and encourage.

4. Say your "thank you's" briefly. 5. Praise and encourage. 6. End on a high note.

Improve career prospects with an MBA

1. **Research.** Find out what an MBA can do for your career. 2. **Network.** Connect with professionals in your field. 3. **Gain experience.** Look for internships or part-time jobs. 4. **Develop skills.** Take courses that will help you in the workplace. 5. **Stay motivated.** Keep your goals in mind and work hard to achieve them.
